

[Date]

Dear Valued Business Partner,

Thank you for being one of our incredible business sponsors! Your gifts help make what we do possible. Please join us in celebrating a groundbreaking 2026 — and consider partnering again for a very hopeful 2027.

Did you know? We open Pearl Street Urban Farm to all families in SW Washington and Oregon who have a child in cancer treatment. Once a month we host a beautiful farm experience for children in treatment and their families. Volunteers — post-treatment and from the wider community — help make time at the farm special. In 2026 we have had more than 150 volunteers to date and 100 visitors whose lives have been touched by pediatric cancer. By season's end we will have given away thousands of pounds of food, thousands of flower stems, and a gazillion smiles with a side of glorious hope!

In January 2026, Embrace Compassion became a licensed agency training adults with developmental and intellectual disabilities in pre-employment skill building. We have served 20 adults this year and celebrated our first person placed in a real job. Our learners volunteer right alongside everyone else. The farm events, volunteers, learning volunteers, and food we produce all complement each other — and make Embrace Compassion shine.

We are so grateful for companies that showed up big in 2026 with a volunteer presence: Genentech, Intel, Deloitte, Tualatin Rotary, George Fox University students, and more!

We are looking for our 2027 sponsors. Recognition begins October 4, 2026 at A Pioneer Farm Experience — our annual fall fundraiser — and continues through our Holiday Celebration on December 5, 2026. Interactive stations will showcase a covered wagon serving dutch-oven food, a 150-year-old apple cider press, a stone sharpener on a metal pedal stand, and corn husk dolls. Our adults with disabilities will help host.

Enclosed you will find our 2027 Business Sponsorship Opportunities and response form. We would be honored to partner with you again.

With kind regards,

Jennifer Bridges
